

Pablo Villoslada-Blanco

AI ENGINEER, BIOINFORMATICIAN & BIOSTATISTICIAN

Madrid, Spain · pablo.villoslada@gmail.com · Website · LinkedIn · GitHub

AI Engineer, bioinformatician and biostatistician with a PhD in Biomedical and Biotechnological Sciences and 7+ years of experience applying AI, Machine Learning and multiomics to biomedical data. I build predictive, results-driven models that turn complex data into clinical and business impact. Creative and sharp-minded, with leadership, coaching and strong time-management skills.

CORE SKILLS

Technical: Machine & Deep Learning · Python · R · Software Development · Containerization · GitHub · Multiomics integration

Professional: Leadership · Scientific Communication · Knowledge transfer

EXPERIENCE

Postdoctoral Research Assistant Jul 2023 – Present

Spanish National Cancer Research Centre (CNIO) · Genetic and Molecular Epidemiology Group (GMEG)

- Built PDAConsensus, a consensus molecular classifier for pancreatic cancer on 514 samples with balanced accuracy of 96.33% (tumor) and 98.92% (stroma) — first and corresponding author, Genome Medicine — and shipped it as a live R package + Shiny app (pdacmoc.cnio.es) with registered IP.
- Lead the AI and data-analysis Work Package (WP3) of PANCAID, a Horizon Europe consortium of 20 partners across 8 countries, integrating 10+ omics layers over 1,500+ subjects for early pancreatic cancer detection by liquid biopsy.
- Applied spatial transcriptomics and multilevel models to dissect pancreatic cancer–diabetes interactions.

Postdoctoral Researcher Nov 2022 – Mar 2023

Center for Biomedical Research of La Rioja (CIBIR)

- Led microbiota bioinformatics and biostatistics across biomedical projects, delivering reproducible analyses and reports.

PhD Researcher Oct 2018 – Sep 2022

Center for Biomedical Research of La Rioja (CIBIR)

- Characterized the gut/oral bacteriome and virome in HIV infection and their links to inflammation and cardiovascular risk — four first-author publications from the doctoral thesis.
- Built metagenomics and virome pipelines (Python, R, Linux, HPC); research stays at the Rega Institute, KU Leuven.

EDUCATION

Master in Artificial Intelligence and Deep Learning Nov 2025 – Present

University of Alcalá (UAH)

Master in Biostatistics Sep 2023 – Jul 2025

Complutense University of Madrid (UCM) · Grade 9.74

Master in Bioinformatics and Computational Biology Sep 2022 – Feb 2024

Autonomous University of Madrid (UAM) · Grade 9.36

Distinction with Honors for the Master's Thesis

PhD in Biomedical and Biotechnological Sciences Oct 2018 – Dec 2022

University of La Rioja (UR)

Extraordinary Doctorate Award · "Cum Laude" Mention · International Doctorate Mention

Master in Chemistry and Biotechnology (Speciality in Biotechnology) 2017 – Jul 2018

University of La Rioja (UR) · Grade 9.07

Extraordinary Award for the best academic record

Degree in Biochemistry 2013 – Jun 2017

Autonomous University of Madrid (UAM) · Grade 8.41

SELECTED PUBLICATIONS

2026. Mireia Andueza, Villoslada-Blanco P, Brune De Dreuille et al. **Learning from Drops: AI-Guided Integration of Liquid Biopsy Features in Cancer Studies.** *bioRxiv*.

2025. Villoslada-Blanco P, Lola Alonso, Sergio Sabroso-Lasa et al. **Development of a Consensus Molecular Classifier for Pancreatic Ductal Adenocarcinoma.** *Genome Medicine*.

21 peer-reviewed publications · 32 conference contributions — full list on ORCID.
